WATER SUPPLY FOR SETTLEMENT

Line Will Be Extended Far Up Waikolo

President L. E. Cofer of the Board of Health was yesterday afternoon directed to enter into the necessary arrangements and make plans wifere by the Leper Settlement at Moloka will be furnished with a splendid new supply of water. F. W. Peasa, who is building the United States Leprosarium at Molokai, stated that if the Board would guarantee a sup ply of 200,000 gallons of water peday forever to the Leprosarium, h would recommend the Surgeon General of the Marine Hospital Service to authorize the expenditure of a sum of money sufficient to extend the 8-inch pipe, which has already been purchased, up to the Waikolo valley, where the generous supply of water is located. The proposed source from which the water will be piped is considerably higher up the nountain-side than the present site.

An estimate of the cost was made by Superintendent of Public Works Marston Campbell, and was for \$4.-050. Mr. Campbell stated that his départment would undertake the work, providing this sum of money was put at its disposal. It is estimated that this source would yield about a million gallons of water a day, thus giving the Settlement a great deal larger supply than ever before. Dr. Cofer will carry out the necessary arrangements immediately.

COFFINS ARE EXPOSED IN GRAVE INSPECTION

ports handed in at the meeting of the Board of Health yesterday afternoon was that sof Chief Sanitary Officer Venhuizen. His report on the inspection of graves for insanitary conditions is especially interesting. it is stated that five coffins were exposed in the inspection of graves,

There were 14 complaints of nuls ances, all of which were investigated and the nuisances abated where such existed.

Two 48-hour notices were served, which had the desired effect.

There were three recommendations for hotel, restaurant, and lodginghouse licenses issued and 57 persons can be lawfully lodged in the buildings licensed.

Seven permits to keep swine and live to keep ducks were issued. Uner these permits 350 swine and 2,-100 ducks can be kept.

There were 56 inspections of graves made and two disinterments aspected. Five coffins were exposed them just in in the digging of these graves.

Nine arrests were made and eight convictions obtained for insanitary onditions. -

During the month 14,735 inspecions were made by the regular sanitary inspectors, also 309 inspections of pig pens and 154 inspections of duck ranches were made, making a total of 15,198 inspections.

There were 30 1-2 days of special luty, most of which time was devotto cemetery inspection and partly making and recording sounding of proposed cemetery sites and ob aining ways and means to supply he balance of the Mollilli district with Government water.

During the month seven houses have been connected with the sewer. A large number of buildings have been thoroughly nerubbed

A complete report will be submitted, under separate cover, of the soundings and existing conditions of the proposed Kalihi cemetery site on Kamehameha IV road.

A personal inspection has been made of the pig pens in Nuuanu and Manoa valleys.

The buildings and conditions at he Nuuanu dam have been inspected and conditions found fair. The regularly appointed inspector at the dam reports 4500 inspections for the month and the stream and buildings have been patroled regularly.
